

WHO SHOULD ATTEND?

- Physician Assistants
- Nurses
- Medical Assistants
- Headstart Health Coordinators

What is the purpose?

To enhance the knowledge and technical ability of health and child care providers in the audiometric screening process for children.

All persons administering a pure tone audiometric screening test must have completed a training course in screening audiometry from the State Department of Health Services, or through a program approved by the State Department of Health Services, and received a certificate.

If a screener has not administered a hearing screening test within a year of their training course, the screener must repeat the training.

Is accreditation offered?

The Kern County Public Health Services Department Nursing is approved as a provider of continuing education by the California State Board of Registered Nurses, Provider #000852. This activity has been approved for 4 credit hours.

Registration fee for LVN's, RN's, PHN's:

\$4 for Non-Public Health Service
Department (PHSD) Nurses
Free for PHSD nurses.

EXACT CASH ONLY

Who are the Presenters?

Video Presenter

Steve J. Rawiszer, Audiologist, is a hearing conservation specialist with the State Department of Health Services CHDP Program. He has extensive experience facilitating hearing workshops throughout California. His workshops and follow-up practicum have received outstanding reviews by participants. He has assisted hundreds of CHDP providers in meeting state qualifications to perform puretone audiometric screenings.

Training Proctor

Debra S. Alberstadt, is a Registered Nurse with an MN and is credentialed in School Nursing audiology. Since 2002 she has been the Assessment Nurse for the Special Education Program at the Kern County Superintendent of Schools. She is a trained instructor in medic first aid and has been a CPR instructor since 2005. She has been a lecturer for the Bakersfield College Foster Parents Program and is a guest lecturer for various nursing programs.

Workshop objectives

- To improve technique
- To improve reliability
- To introduce the latest technology in equipment
 - To increase the number of successful screenings

Upon completion of workshop participants will be able to:

- Apply audiometry techniques
- Record results of hearing screening and management of follow-up of those children with possible problems.
- Understand the requirements for CHDP screenings.
