

WHO SHOULD ATTEND?

- All CHDP Program and Medi-Cal Managed Care Providers who provide vision screening exams to young children, including medical assistants and other interested persons.

COURSE GOALS AND OBJECTIVES

- Participants will have basic knowledge of the anatomy and physiology of the eye.
- Participants will be able to demonstrate proper screening techniques for visual acuity and for the detection of amblyopia in children.
- Participants will become aware of specific ophthalmologic problems influencing visual performance and understand appropriate action, referral, and follow up.
- Participants will become familiar with CHDP Health Assessment Guidelines (HAG) as related to vision screenings and will be able to document screening findings appropriately.

All CHDP physicians, professional and paraprofessional staff performing vision screenings must be trained either by:

- Attending this workshop
- Attending a similar instructional vision workshop
