

HAZARDOUS MATERIALS FEES

APPLICATION FEE **EH05** **\$145.00**

BUSINESS PLAN

Each business required to submit a business plan pursuant to California Health and Safety Code Section 2550 et seq shall pay an annual administrative fee based on volume or weight of hazardous material (for solid only, liquid only, gas only, or unit based). Fees shall be determined by a combination of bulk quantities per facility, number of storage locations at a facility, and the frequency of inspections determined by risk as described below.

Facility Volume/Unit Score Determination

The weights of hazardous materials at a facility shall be determined by summing weights of all solids (exceeding the reportable quantity) in pounds. The liquid volume of all hazardous materials at a facility shall be determined by summing the volumes of all liquids (exceeding the reportable quantity) in gallons. The gas volume of all hazardous materials at a facility shall be determined by summing the volumes of all gases (exceeding the reportable quantity) in cubic feet at standard temperature and pressure. For example, liquefied petroleum gas (propane) can be reported in pounds.

For calculating amounts of materials, liquefied petroleum gas (propane), aqua ammonia, and liquid oxygen will be calculated in gallons, anhydrous ammonia and chlorine shall be calculated in pounds.

The above paragraphs may be used "as is" for facilities that have only solids, or liquids, or gases. Facilities having a mixture of solids, liquids, or gases in inventory shall assign a "unit score" from the sum of the solids and a sum of the liquids and a sum of the gas and then add the unit score to determine the base fee using the following methodology:

Unit scores are assigned by using the ratio of the thresholds (liquid threshold is 55 gallons, solid threshold is 500 pounds, and gas threshold is 200 cubic feet) of the materials and summing the unit scores. One gallon of liquid is equal to one unit, one pound is equal to 0.11 units, and one cubic foot is equal to 0.275 units.

To calculate the facility's score, multiply the gallons in inventory by 1, multiply the pounds by 0.11, and multiply the cubic feet by 0.275. Then add the calculated unit numbers together. If the unit total is less than 5,500 units the facility would be categorized as "small". If the unit total is between 5,500 units and 55,000 units the facility would be categorized as "medium". If the unit total is greater than 55,000 units the facility would be categorized as "large".

Small is less than 5,500 gallons, or less than 20,000 ft³, or less than 50,000 pounds, or less than 5,500 units.

Medium is 5,500 to 55,000 gallons, or 20,000 to 200,000 ft³, or 50,000 to 500,000 pounds, or 5,500 to 55,000 units

Large is greater than 55,000 gallons, or greater than 200,000 ft³, or greater than 500,000 pounds, or greater than 55,000 units

Inspection Frequency and Risk Determination*:

Inspections will be conducted in the frequency required in Title 19 of the California Code of Regulations, Division 2, Chapter 4.5, Article 8, Section 2770.5, and that exceed the threshold quantities of those chemicals as defined in California Health and Safety Code Section 25503.5 et seq, Section 25503.5 et seq.

Facilities may be placed into a higher risk category if they are out of compliance for more than three months or at the discretion of the Director of Public Health Services, based upon site specific and hazardous material specific circumstances.

Description	Code	Fee
SMALL, ONE UNIT, TRIENNIAL INSPECTION	CB1T	\$110.00

MEDIUM, ONE UNIT, TRIENNIAL INSPECTION	CB2T	\$165.00
LARGE, ONE UNIT, TRIENNIAL INSPECTION	CB3T	\$1,680.00
SMALL, ONE UNIT, BIENNIAL INSPECTION	CB1B	\$165.00
MEDIUM, ONE UNIT, BIENNIAL INSPECTION	CB2B	\$260.00
LARGE, ONE UNIT, BIENNIAL INSPECTION	CB3B	\$2,520.00
SMALL, ONE UNIT, ANNUAL INSPECTION	CB1A	\$340.00
MEDIUM, ONE UNIT, ANNUAL INSPECTION	CB2A	\$500.00
LARGE, ONE UNIT, ANNUAL INSPECTION	CB3A	\$5,030.00
SMALL, 2 TO 5 UNITS, TRIENNIAL INSPECTION	CB4T	\$200.00
MEDIUM, 2 TO 5 UNITS, TRIENNIAL INSPECTION	CB5T	\$430.00
LARGE, 2 TO 5 UNITS, TRIENNIAL INSPECTION	CB6T	\$1,960.00
SMALL, 2 TO 5 UNITS, BIENNIAL INSPECTION	CB4B	\$290.00
MEDIUM, 2 TO 5 UNITS, BIENNIAL INSPECTION	CB5B	\$625.00
LARGE, 2 TO 5 UNITS, BIENNIAL INSPECTION	CB6B	\$2,945.00
SMALL, 2 TO 5 UNITS, ANNUAL INSPECTION	CB4A	\$595.00
MEDIUM, 2 TO 5 UNITS, ANNUAL INSPECTION	CB5A	\$1,260.00
LARGE, 2 TO 5 UNITS, ANNUAL INSPECTION	CB6A	\$5,865.00
SMALL, MORE THAN 5 UNITS, TRIENNIAL INSPECTION	CB7T	\$340.00
MEDIUM, MORE THAN 5 UNITS, TRIENNIAL INSPECTION	CB8T	\$500.00
LARGE, MORE THAN 5 UNITS, TRIENNIAL INSPECTION	CB9T	\$2,230.00
SMALL, MORE THAN 5 UNITS, BIENNIAL INSPECTION	CB7B	\$500.00
MEDIUM, MORE THAN 5 UNITS BIENNIAL INSPECTION	CB8B	\$760.00
LARGE, MORE THAN 5 UNITS, BIENNIAL INSPECTION	CB9B	\$3,350.00
SMALL, MORE THAN 5 UNITS, ANNUAL INSPECTION	CB7A	\$1,000.00
MEDIUM, MORE THAN 5 UNITS, ANNUAL INSPECTION	CB8A	\$1,520.00
LARGE, MORE THAN 5 UNITS, ANNUAL INSPECTION	CB9A	\$6,695.00

HAZARDOUS WASTE GENERATOR

Description	Code	Fee
LARGE QUANTITY HAZARDOUS WASTE GENERATOR	CG03	\$810.00
SMALL QUANTITY	CG07	\$200.00
RCRA LARGE QUANTITY	CG08	\$810.00
CONDITIONALLY AUTHORIZED TIERED TREATMENT	CG09	\$1,085.00
CONDITIONALLY EXEMPT TIERED TREATMENT	CG10	\$1,085.00
PERMIT BY RULE TIERED TREATMENT	CG11	\$1,085.00
PBR-HOUSHOLD HAZARDOUS WASTE COLLECTION	CG12	\$690.00

UNDERGROUND STORAGE TANK

Description	Code	Fee
OPERATING PERMIT PER TANK	CS00	\$755.00
APPLICATION FOR ABANDONMENT	CS02	\$2,300.00
APPLICATON FOR CONSTRUCTION	CS03	\$5,810.00
APPLICATION FOR MODIFICATION	CS04	\$2,555.00
APPLICATION MINOR MODIFICATION	CS07	\$625.00
LINING RECERTIFICATION TEST	CS08	\$290.00

ABOVE GROUND STORAGE TANK - AGGREGATE FACILITY VOLUME

Description	Code	Fee
1,320 TO 9,999 GALLONS	CD01	\$130.00
10,000 TO 99,999 GALLONS	CD02	\$250.00
MORE THAN 99,999 GALLONS	CD03	\$490.00

CALIFORNIA ACCIDENTAL RELEASE PREVENTION (CALARP)

Facilities are categorized by the severity of the risk posed and the complexity of the process. Risk is divided into three tiers and is correlated with the definations found in Part 68 of Subchapter C of Chapter I of Title 50 of the Code of Federal Regulations.

Inspection Frequency and Risk Determination:

Facilities are categorized by the severity of the risk posed and the complexity of the process.

Risk is divided into three tiers and is correlated with definitions found in Part 68 of Subchapter C of Chapter I of Title 50 of the Code of Federal Regulations.

Complex process shall mean a facility using one or more chemicals in a process that involves any of the following: multiple valves and piping, process reaction vessels, or processes that are temperature and/or pressure dependent.

Special complex shall mean a facility that manufactures or refines a product or is determined to utilize multiple complex processes and is categorized as high risk.

Low risk facility shall mean the same as a Program 1 and will be inspected triennially.

Moderate risk facility shall mean the same as a Program 2 facility and will be inspected biennially.

High risk facility shall mean the same as a Program 3 facility and will be inspected annually.

Description	Code	Fee
COMPLEX SINGLE CATEGORY		
HIGH RISK	CRA3	7,980.00
MODERATE RISK	CRB3	3,185.00
LOW RISK	CRC3	1,585.00
COMPLEX MULTIPLE CATEGORY		
HIGH RISK	CRA4	11,165.00
MODERATE RISK	CRB4	3,985.00
LOW RISK	CRC4	2,125.00
SPECIAL COMPLEX		
HIGH RISK	CRA5	19,145.00
MODERATE RISK	CRA5	19,145.00
LOW RISK	CRA5	19,145.00

State Surcharges

Facilities in the CalARP program shall pay state surcharges as required by California Code of Regulations Title 27 § 15240.
