Response Compliance

Response time compliance is complex; there are 25 categories of response time compliance that must be met each month. In addition, there are three other categories of response compliance we measure to ensure that advanced life support (ALS) units are predominately used in the system for pre-hospital emergency calls.

Due to the increased call volume, extended ambulance offload times and ambulances out of service due to decontamination from COVID 19, EMS waived Response Compliance in 2021.

2021 brought with it a continuation of the COVID-19 pandemic. Liberty Ambulance Service staff worked tirelessly to provide the best possible care for the people of Kern County. The management staff worked in cooperation with EMS as we developed and updated our policies, procedures and protocols to meet the everchanging demands brought on by COVID. With increasing call volumes, extended offload times, staff being exposed and becoming ill and ambulances out of service due to decontamination, Liberty Ambulance never gave up. The management, paramedics, emts, dispatchers and nurses that man the units everyday are to be commended on the outstanding job they did in the face of such adversity. It is because of their dedication that Kern County was able to make it through the largest surge.
