## **Waste and Treatment Process Combinations**

The Waste and Treatment Process Combinations pages list those waste and treatment combinations certified by DTSC pursuant to HSC §25200.1.5 for authorization under CE, CA, and PBR tiers. Each page is specific to a tier, with each tier specific page listing the wastes and treatment processes eligible under that tier. Note that some of the categories have volume or concentration restrictions that must be met in order to qualify for that tier. Additionally, some of the wastes refer to 22 CCR and others to the Health and Safety Code.

Complete one Waste and Treatment Process Combinations page for each unit, except CE-CL units.

(Note: the numbering of the instructions follows the data element numbers that are on the UPCF pages. These data element numbers are used for electronic submission and are the same as the numbering used in 27 CCR, Appendix C, the Business Section of the Unified Program Data Dictionary.)

Please number all pages of your submittal. This helps the Kern County Environmental Health Division (KCEHD) identify whether the submittal is complete and if any pages are separated.

- 606. UNIT ID NUMBER Enter the unit ID number (same as item 606 from the Onsite Hazardous Waste Treatment Notification Unit page).
- 1. FACILITY ID NUMBER Leave this blank. This number is assigned by KCEHD. This is the unique number which identifies your facility.

627.	WASTE AND TREATMENT PROCESS COMBINATIONS - CESQT	Use the correct page for the unit. Check the
628.	WASTE AND TREATMENT PROCESS COMBINATIONS - CESW	waste and treatment process(es) that pertain to
629.	WASTE AND TREATMENT PROCESS COMBINATIONS - CA	the unit. If the process is a technology certified
630.	WASTE AND TREATMENT PROCESS COMBINATIONS - PBR	by DTSC, please enter the Certified
631.	WASTE AND TREATMENT PROCESS COMBINATIONS - CEL	Technology Number (Cert. #).

Note that reactive and extremely hazardous wastes are not allowed to be treated under any of the onsite treatment tiers, except for certain wastes under Conditionally Exempt - Specified Wastestreams.

## **CERTIFIED TECHNOLOGIES**

DTSC is authorized to certify hazardous waste technologies. Appropriate certified technologies may be eligible for CE, CA or PBR onsite treatment tiers. A copy of published Certification Statements updates may be obtained by contacting DTSC at (916) 322-3670 or from the DTSC web site at:

 $www.dtsc.ca.gov/database/TechCert/company\_index.cfm.$
