- Yes
- No
- Unsure

Are any dust or paint chips escaping the work area?

- Yes
- No
- Unsure

Please check if any of the following items have NOT been performed by the workers.

- Cover and tape down plastic sheeting (6-10 feet in most cases) on the ground/floor
- Close doors, windows and/or ducts so lead dust stays contained.
- Avoided use of open flame burning or torching of lead paint
- If using machines to sand, grind, plane, sandblast, the machine must be connected to a HEPA vacuum.
- At the end of each workday, the waste must be collected, contained, and stored safely.
- At completion of the project, the site must be cleaned so no dust, debris, or residue remain.
- Lead paint waste safely disposed.
