

Emergency Medical Services <u>Division Program</u> Policies – Procedures – Protocols

Formatted: Font color: Red, Strikethrough

Emergency Medical Dispatch Policy and Procedures (2001.00)

I. GENERAL PROVISIONS

- A. These policies and procedures define requirements for Emergency Medical Dispatcher (EMD) scope of practice, training, certification, recertification, challenge of certification, EMD providers, EMD and EMS dispatch operational requirements within the County of Kern (County). Authority and medical control of the Kern County Emergency Medical Services <u>Division Program</u> (<u>Division</u> <u>Program</u>) is in accordance with California Health and Safety Code and California Code of Regulations Title 22.
- B. It is a minimum standard of the County that all callers requesting emergency medical assistance from any area or jurisdiction within the county have direct access to an authorized emergency medical dispatch provider and qualified emergency medical dispatch personnel. EMD Services include priority medical dispatch of EMS resources, pre-arrival instructions and post-dispatch instructions using <u>Division_Program</u> authorized protocol (reference: ASTM Standard Practice for Emergency Medical Dispatch F 1258 - 90).
- C. All EMD personnel, EMD providers, and all organizations having responsibility for emergency medical services call coordination or dispatch operating within the County shall comply with the provisions of these policies and procedures at all times. However, it is recognized that fire departments, at the discretion and direction of the fire chief may find it advantageous to respond emergency equipment for other purposes above and beyond the established medical response level approved by the Medical Director. This policy document is not intended to limit or interfere with a fire chief's statutory authority to dispatch additional resources under his/her command. The accountability for deploying said additional resources in excess of the medically approved response level for any EMS response becomes that of the fire chief of the responding agency.
- D. No dispatch agency and/or dispatch personnel may provide priority medical dispatch of medical resources or provide pre-arrival instructions or post-dispatch instruction by a dispatch protocol to any EMS caller unless having valid EMD provider authorization and current accreditation from the Kern County EMS <u>Division Program</u>. The intent of this section is to prevent unauthorized use of EMS dispatch reference systems and reoccurring, unauthorized EMS dispatch functions.
- E. Public Safety Answering Point (PSAP) provision of EMD level service is optional at the discretion of the law enforcement agency having jurisdiction. For calls involving law enforcement resource needs and medical, a PSAP should gather law enforcement call information and transfer the caller to a <u>Division Program</u>

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date:3/1/1992 Revision Date: 9/1/2016

Formatted: Font color: Red, Strikethrough

authorized dispatch center for medical response or relay medical response information as specified by the <u>Division Program</u>. For medical calls, the PSAP should transfer the caller to a <u>Division Program</u> authorized medical dispatch center after law related call information is obtained.

F. Each ambulance provider shall have emergency medical dispatcher (EMD) service available at all times. This requirement may be satisfied with a contract for service from another locally approved EMD dispatch center, provided that said other dispatch center is responsible for accepting service request calls for the ambulance provider. [Ambulance Performance Standards III. C.]

II. DEFINITIONS

- A. "Accredited or Authorized EMS Dispatch Center" means a <u>Division Program</u> authorized dispatch center to provide emergency medical dispatch.
- B. "Ambulance" as used in EMD Protocols and further refined under definition of "Charlie Response" shall mean an available BLS ambulance from a <u>Division</u> <u>Program</u>— authorized ambulance service or ambulance provider covering a geographic ambulance service area or operating area, or zone approved by the <u>Division Program</u>.
- C. "Alpha F" means a Fire First Responder is sent Cold as further defined in these policies.
- D. "Alpha Level Response" shall mean a Code-2 (Cold) emergency medical call where the ambulance service takes immediate steps to dispatch a response.
- E. Advanced Life Support (ALS) ambulance an ambulance with valid California Highway Patrol certification that has the basic personnel, equipment, and supplies set forth in Title 13 and Title 22 of the California Code of Regulations and Division specifications. [Ordinance 8.12.030 Definitions, A]
- F. "ALS Ambulance Response" as used in dispatch protocol means an ALS Ambulance response if closest and available (unassigned).
- G. Advanced Life Support first responder a public or private provider or agency that engages in EMS first response at the advanced life support level through a <u>Division Program</u>-approved ALS program. [Ordinance 8.12.030 Definitions, C]
- H. Ambulance service medical transportation service for patients requiring medical treatment and/or medical monitoring due to illness, injury, or other medical condition. [Ordinance 8.12.030 Definitions, G]
- I. "Bravo F" means a Fire First Responder is sent Hot as further defined in these policies.

Formatted: Font: Not Bold

- J. "Bravo Level Response" shall mean a potential time issue emergency medical call as indicated by EMD Protocol.
- K. "Charlie F" means a Fire First Responder is sent Hot as further defined in these policies.
- L. "Charlie Level Response" shall mean a potential life-threatening emergency medical call as indicated by EMD Protocol.
- M. "Code-3 or Hot" shall mean medical resource response mode using emergency lights and/or siren.
- N. "Code-2 or Cold" shall mean immediate medical resource response mode without use of emergency lights and siren, obeying standard traffic laws.
- O. "Closest Ambulance" shall mean an available operational area ambulance that will provide the shortest response time to an EMS call.
- P. "Closest First Responder" as used in dispatch protocol means the closest and available ALS or EMT-1 or other First Responders that are formally approved through the Kern County EMS <u>Division Program</u> that will provide the shortest response time to the incident.
- Q. County the County of Kern, a political subdivision of the State of California. [Ordinance8.12.030 Definitions, S]
- R. "Delta Level Response" shall mean a life-threatening emergency medical call as indicated by EMD Protocol.
- S. Division, the Kern County Emergency Medical Services Division, as established by Ordinance Code Section 2.23.010; the designated local EMS agency (LEMSA). [Ordinance8.12.030 Definitions, U].
- S. "Duty Officer" the on-call EMSP Coordinator.
- T. "ECC" means the Emergency Communications Center.
- U. "Echo Level Response" shall mean the highest priority life-threatening emergency medical call as indicated by EMD Protocol.
- V. "Emergency Medical Dispatcher" (EMD) means a person having a valid national-EMD certificate recognized by the <u>Division Program</u> and valid EMD certification issued by the <u>Division Program</u>, authorized to provide pre-arrival medical telephone instructions and/or post-dispatch medical instruction, and medical priority dispatch of EMS resources in accordance with <u>Division Program</u> protocols.

- D. The scope of practice for an EMD is:
 - Receipt of EMS calls, medical interrogation of the caller using techniques specified in EMD training and EMD protocol(s), and obtain required EMS call information as specified by EMD protocol.
 - Information relay, accurate dispatch, and upgrade or downgrade of various EMS resource response configurations as defined by EMD protocol authorized by the <u>Division Program</u>.
 - 3. Provision of pre-arrival instruction and post-dispatch instruction in compliance with EMD protocol.
 - 4. Provision of updated call information to responding EMS resources.
 - 5. Provision of interagency response coordination.
- D. All EMD personnel operating within the County shall operate within the EMD scope of practice as specified in these policies and procedures.
- E. Inappropriate EMD activity includes any of the following:
 - 1. Display of hostility or arguing with a caller;
 - 2. Pre-mature judgment of a situation based on past experience with a caller;
 - 3. Judgment of situation severity based on previous personal experiences;
 - 4. Refusal or failure to dispatch available unit(s) in accordance with protocol;
 - 5. Inappropriate termination of a call for assistance; or
 - 6. Failure to act or to dispatch in accordance with EMD protocol or policies and procedures.

V. EMD TRAINING REQUIREMENTS

Α.	All EMD personnel operating within the County shall attend an Advanced EMD
	certification training course provided by the IAED. Training shall be in the version
	of IAED protocols approved for use by the Division Program . In limited situations,
	training may be in a version of IAED protocols that are in the process of being
	implemented by the Division Program.

B. Upon confirmation by the employer of successful completion of an Advanced EMD certification training program, the individual shall complete a minimum of eight (8) hours in the following EMD Local Protocol Training:

- 1. EMS Dispatch Policies and Procedures.
- 2. Allocation of local EMS resources including EMS Aircraft dispatch.
- 3. Local responses on EMD Protocol.
- 4. Multi-casualty incidents and disaster procedures.
- 5. Practical lab (scenario work with EMD Protocol).
- C. EMD Internship: Upon confirmation by the employer of successful completion of the Advanced EMD certification training program and EMD Local Protocol Training with appropriate documentation, an individual shall be <u>considered an</u> <u>EMD Intern</u>. An EMD Intern shall successfully complete a minimum of twelve (12) hours of EMD Practical Training and successfully manage a minimum of ten (10) EMD calls through an EMS <u>Division Program</u> authorized EMD Provider, under the direct supervision of an EMD Preceptor with valid certification; and provide documentation of successful EMD Practical Training completion signed by the EMD Preceptor. Successful management of an EMD call shall mean that the EMD Intern can manage the entire call without EMD Preceptor intervention.
- D. The <u>Division Program</u> may specify additional EMD training requirements.
- E. A Kern County EMD Provider is authorized to designate one or more EMD Preceptors to provide EMD Intern training. In order to be eligible as an EMD Preceptor, the individual shall:
 - 1. Have a minimum of one (1) year active practice as a certified EMD within Kern County within the previous two (2) years;
 - 2. Have an overall positive record of EMD performance. EMD performance shall individually be the same standard as the IAED Standards for Accreditation. The EMD Preceptor candidate shall meet the standards during the previous year;
 - 3. Complete an EMD Preceptor briefing provided by the EMD Provider in educational techniques, oversight of EMD intern practice, problem mitigation and documentation; and
 - 4. Notify the <u>Division Program</u> of each EMD Preceptor that has completed the process prior to assignment of an EMD intern.

G. An EMD intern may be required by the <u>Division Program</u> to repeat any training requirement that is not successfully completed. EMD Practical Training must be successfully completed within a maximum of two (2) attempts. If EMD Practical Emergency Medical Dispatch Policies and Procedures (2001.00)

- 6. A valid picture identification;
- 7. Pay the established EMD certification fee; and
- 8. Meet other requirements as specified by the <u>Division_Program</u> for EMD accreditation. Additional requirements not specified herein shall be subject to feedback and review.
- C. Upon completion of all EMD accreditation requirements, the <u>Division_Program</u> will issue EMD accreditation.
- D. Local EMD accreditation will be the same term and expiration date as their IAED EMD certification.
- E. An EMD having current IAED EMD certification in the current version of EMD Protocol authorized by the <u>Division_Program</u> with documented <u>full_full-time</u> experience as a practicing EMD in another area within the last six (6) months, may become accredited within the County through an EMD accreditation challenge process (challenge) provided by the <u>Division Program</u>. After successful completion of the EMD challenge process, EMD accreditation shall be issued. The EMD challenge process shall include at minimum the following:
 - 1. Eight (8) hours of EMD Local Protocol Training;
 - 2. Successful completion of EMD Practical Training with successful management of a minimum of five (5) EMD calls through an <u>Division</u> <u>Program</u> authorized EMD Provider, under the direct supervision of an EMD preceptor with valid certification; and provide documentation of successful EMD Practical Training completion signed by the EMD preceptor (successful management of an EMD call shall mean that the EMD Intern can manage the entire call without EMD Preceptor intervention); and
 - 3. Meet other requirements for EMD accreditation. Additional requirements not specified herein shall be subject to feedback and review.
- F. Failure to successfully complete all requirements for EMD accreditation challenge as specified shall require the individual to successfully complete the EMD Local Protocol Training Program and EMD Practical Training for EMD accreditation. If the challenge process cannot be completed within two (2) attempts, the individual shall be required to wait one (1) year from the date of the second failure to reinitiate the challenge process.
- G. EMD accreditation may be placed on probation, suspended or revoked for noncompliance with these policies and procedures.

VIII. EMD CONTINUING EDUCATION

- A. Continuing Dispatch Education (CDE) shall be coordinated and organized through the EMD Provider Agency, in accordance with IAED CDE requirements.
- B. EMD continuing education hour(s) shall be granted for each hour of EMD attendance in a <u>Division Program</u> approved program (one (1) EMD continuing education hour per hour of attendance). A continuing medical dispatch education certificate shall be issued through an approved prehospital continuing education provider.

IX. EMS DISPATCH CENTER FACILITY, EQUIPMENT & STAFFING REQUIREMENTS

- A. All EMS dispatch centers shall provide for a continuously available and staffed dispatch facility for receipt of calls, dispatch of EMS resources (i.e., ambulances, fire apparatus, etc.) and EMS resource status maintenance. Facility shall have heating, cooling and restroom facilities, and the availability of auxiliary power (batteries, gas or diesel generator, and appropriate procedures) that will maintain adequate power to dispatch facility lights, phones and radio equipment to operate for a minimum of 72 hours. The dispatch center shall also have reasonable security measures in place to prevent unauthorized access to the dispatch center or equipment. Security may be in the form of locked entry, surveillance video, or a dispatch facility plan.
- B. All EMS dispatch centers shall continuously staff the dispatch facility with dispatch personnel and maintain the ability to receive calls for service on a continuous 24-hour basis.
- C. All EMS dispatch centers shall have sufficient telecommunications and recording equipment for communications and dispatch operations.
- D. All EMS dispatch centers shall have access to a dispatch facility with sufficient telecommunication equipment for communications on Kern County Medical Radio System through the repeater network.
- E. All EMS dispatch centers shall maintain audio recordings of the primary telephone and radio communications related to EMS dispatch for a minimum of six (6) calendar months. Dispatch logs shall be maintained by all EMS dispatch centers for a minimum of one (1) calendar year. If recording equipment breaks down due to mechanical failure or other reasons, the <u>Division Program</u> will allow a reasonable time for the EMS dispatch center to have equipment repaired. [Ambulance Performance Standards VI.I.]
- F.All EMS dispatch centers shall be equipped with a computer aided dispatch
(CAD) system. The CAD software shall be capable of recording incidentEmergency Medical Dispatch Policies and Procedures (2001.00)11Effective Date: 3/1/1992

continuing education, and quality assurance. Specific functions may be delegated to other EMD qualified personnel.

- An assigned EMD-Q, having valid EMD certification and valid IAED EMD quality assurance certification, responsible for, but not limited to, initial training, continuing education, and quality assurance.
- 4. EMD quality assurance functions shall include EMD case activity evaluation, protocol compliance evaluation and individual case review.
- 5. Monthly continuing education classes shall be provided for EMD personnel.
- A <u>Division_Program</u> approved EMD Protocol for each active EMD call taker position.
- 7. A mechanism for continuous EMD supervision.
- 8. A written reporting mechanism for EMD questions and feedback.
- Continuous recording capability of telephone line(s) assigned for receipt of EMS callers and provider radio frequencies used for dispatch or coordination of dispatch of EMS resources.
- 10. Ensure continued EMD personnel compliance with EMD protocol and these policies and procedures.
- 11. Ensure adequate EMD staffing to meet customary EMD services demand.
- 12. A structured mechanism for random tape evaluation of all EMD personnel performance and accuracy of protocol compliance by all EMD personnel.
- 13. Provide representation at EMS Dispatch Quality Improvement Group meetings scheduled by the <u>Division Program</u>.
- Maintain EMD records and/or data as specified by these policies and make such records or data available to the <u>Division Program</u> upon request.
- 15. Employ the most current version of the Medical Priority Dispatch System (MPDS) provided by the International Academies of Emergency Dispatch (IAED) which has been authorized by the medical director.
- E. EMD Provider authorization may be placed on probation, suspended or revoked by the <u>Division</u> Program for non-compliance with these policies and procedures.

XI. EMD OPERATIONAL PROCEDURES

- A. The EMS Dispatch Center should answer an incoming call within three (3) rings whenever possible and identify for the caller the name of the center.
- B. ECC shall contact OCD for ambulance response within two (2) minutes of call time. OCD shall contact ECC or the appropriate fire department for fire response within two (2) minutes of call time.
- C. The EMD shall comply with EMD protocol procedures for case entry, chief complaint selection, determinant selection, dispatch of response, pre-arrival and post-dispatch instructions.
- D. If an EMS call is received from another dispatch agency, the dispatch center shall obtain the incident location, call back number, and chief complaint/problem and/or EMD Code. In addition, if an EMS call is received from a Kern County Authorized EMD Provider, the dispatch center shall obtain the EMD Code.
- E. In cases where two separate EMD Providers have processed an EMS call, the EMD Provider that communicated with the highest-<u>level caller (first party</u> highest) shall take priority in determinant selection and dispatch of response. In cases where the same level of caller is available to both EMD Providers, the highest level of response selected shall be dispatched according to EMD Protocol.
- F. Once the EMD Protocol has been used by an EMD center for an EMS call, another EMD from a different EMD Provider shall not contact the caller to reassess the call for a different level of response.
- G. For EMS calls located outside the usual and customary response area and /or mutual aid response area outside Kern County shall be managed in accordance with EMD Protocol with the exception of 4th Party Callers. 4th Party Callers for calls located outside the usual and customary response area outside Kern County shall be advised that the incident is located beyond the usual and customary response area.
- H. Protocol #33 "Transfer/Interfacility/Palliative Care" shall be used for all prehospital EMS calls originating from physician offices, dialysis centers, clinics, urgent care centers, nursing facilities, extended care facilities, surgical centers, jail/prison medical facilities, or an acute care hospital with no emergency services in which the patients known end point is an emergency department. A Registered Nurse (RN), Nurse Practitioner, Physician Assistant, or Medical Physician must be present at the call location to use this EMD Card. If such medical staff are not on-site, triage in accordance with an appropriate chief complaint Card (1-32). Alpha acuity levels are designated by local Medical Control as the following:

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

14 Kristopher Lyon, M.D. (Signature on File) Formatted: Font color: Red

Formatted: Font color: Red

- 1. ACUITY I (no priority symptoms) 33-A-1: Shall be used for patients with a medical or trauma compliant. Such complaints may include, but are not limited to; hypertension, diabetes, soft tissue injuries, fractures, stroke, labor, or non-severe complaints of pain.
- 2. ACUITY II (no priority symptoms) 33-A-2: Shall be used for patients without a medical or trauma compliant who requires a procedure that the sending facility is unable to perform. Such complaints may include, but are not limited to; PEG tube placement or re-insertion, Foley catheter placement or re-insertion, abnormal lab values, or x-rays.
- ACUITY III (no priority symptoms) 33-A-3: Shall be used for non-critical patients that originate from a jail or prison infirmary or treatment area. This EMD code shall only be used for non-critical patients that do not meet criteria for a higher level of response as dictated by the protocol.
- I. EMD Determinant:
 - The EMD shall document the EMD Protocol Determinant Code used for each response which indicates the protocol card used (1-33), determinant level (Ω,A,B,C,D,E), the determinant descriptor (1-28), and suffix or override if applicable.
 - 2. PCR entry of EMD Codes shall be based on the initial EMD Code assigned.
- J. EMD Selection & Dispatch of Response:
 - 1. "Alpha F" means a Fire First Responder is sent Cold (with the exception of Card #7 and Card #12) as specified on EMD Protocols (when Fire and Ambulance are not responding from the same area or community).
 - 2. "Bravo F" means a Fire First Responder is sent Hot as specified on EMD Protocols if an ambulance is unable meet the response time standard or Fire resources are closest to the location of the call. Fire is not sent if Fire and ambulance are responding from the same area and the ambulance can meet the response time standard. Fire and ambulance response je jeare continued Hot until EMS personnel on-scene confirmation of the patient problem.
 - 3. "Charlie F" means a Fire First Responder is sent Hot as specified on EMD Protocols if an ambulance is unable meet the response time standard or Fire resources are closest to the location of the call. Fire is not sent if Fire and ambulance are responding from the same area and the ambulance can meet the response time standard. Fire and

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

15 Kristopher Lyon, M.D. (Signature on File)

ambulance response is are continued Hot until EMS personnel on-scene confirmation of the patient problem.

- 4. "Charlie A" means an ambulance is sent Cold initially for fire related cases warranting an ambulance staged stand-by.
- 5. "ALS Ambulance Response" as used in dispatch protocol means an ALS Ambulance response from the operational area provider is dispatched if closest and available (unassigned).
- "Closest First Responder" as identified for ECHO determinants mean dispatch of the closest ALS, EMT-1 or other First Responders for the jurisdiction or operational area that are formally approved and assigned for response to the call location through the Kern County EMS <u>Division</u> <u>Program</u>, in addition to standard Fire and Ambulance resources.
- 7. All EMS responses to incidents that are staged to a specific location before scene clearance and entry will be dispatched Cold. If the scene is cleared and secured by law enforcement before EMS arrival, the response will be modified according to protocol.
- 8. Fire response for EMS incidents shall be made by contact of the appropriate communications center having jurisdiction over the call location.
- Ambulance response shall be made by contact of the ambulance service covering the operational area in which the call is located. Ambulance service operational areas are defined by the <u>Division Program</u>.
- All EMD personnel shall always initiate a response to all EMS calls as specified by these policies, procedures and <u>Division Program</u> authorized protocols.
- 11. Dispatch call information provided to responding resources should include:
 - a. Chief complaint, problem or situation
 - b. Call location description; and
 - c. Response mode or priority response code
- 12. Dispatch call information provided to another dispatch center or EMD provider shall include at minimum:
 - a. Chief complaint, problem, or situation; and EMD Code (an EMD provider shall provide the complete EMD Code);

Emergency Medical Dispatch Policies and Procedures (2001.00)16Effective Date: 3/1/1992Kristopher Lyon, M.D.Revision Date: 9/19/20196(Signature on File)

Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

- b. Call location description to include area or community, street address, intersection or roadway location description, and Key Map coordinates.
- 13. In cases where an EMS call is received from a non-EMD provider, the EMD should contact the EMS caller to provide EMD services as appropriate.
- K. EMD Post-Dispatch Instruction & Pre-Arrival Instructions:
 - 1. EMD personnel shall provide post-dispatch instruction(s) and pre-arrival instructions as indicated on protocol, incorporating EMD techniques of repetitive persistence and anticipation of predictive caller behaviors.
 - 2. EMD personnel shall stay on the telephone line, emergency call workload permitting, according to EMD protocol.
 - 3. EMD personnel shall provide updated information on call location changes or situation changes to responding EMS resources.
 - EMD personnel shall up-grade or down-grade response mode if additional information is obtained after initial resources are responded if indicated by protocol.
 - 5. EMD personnel shall only terminate the call according to protocol.
 - EMD personnel shall not transfer the caller to another agency or organization or terminate an EMS call without completing the protocol (including EMS related calls received outside the Kern County jurisdiction).
 - 7. An EMS caller may be transferred or referred to another agency or organization, such as a poison control center or a mental health hotline, only after a response is dispatched if appropriate by protocol.
 - a. The caller will be "conferenced" to poison control and the dispatcher will remain on the line until the call is completed, or when units arrive on scene.
 - b. If required by protocol to remain on the line with a "violent or suicidal patient", if appropriate, the caller will be "conferenced" to the Mental Health hotline and the dispatcher will remain on the line to monitor the situation and provide any pertinent updates to responding units until the call is completed or when units arrive on scene.

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Kr Revision Date: 9/19/20196

L. EMD Interagency Coordination:

- 1. EMD Providers shall ensure that EMD personnel provide adequate interagency response coordination for public agencies, communication/dispatch centers, fire departments, and ambulance services that are responding to an incident, involved in communication coordination or have jurisdictional authority related to the incident. Interagency coordination includes but is not limited to the following:
 - a. Prompt notification of the appropriate Law Enforcement Agency of all vehicle accidents and potential or actual crime related incidents;
 - Updated call information including situational changes, patient condition changes, upgrade or downgrade of response, response cancellation and call location changes;
 - c. Additional resources dispatched after original dispatch including notification of EMS aircraft response;
 - d. Any apparent hazards brought to the attention of the EMD which may cause threat to safety of responding personnel; and
 - e. Response routing instructions to avoid response delays or for hazardous materials incidents as available and appropriate.
- M. Specific Resource Response or Cancellation Requests
 - 1. After dispatch, the standard response shall be continued unless further verifiable on-scene information is obtained.
 - 2. Specific ambulance resource requests received from on-scene Fire Department or Law Enforcement shall be referred to the operational area ambulance service.
 - 3. An ambulance service may request Fire Department or Law Enforcement resources as needed.
 - 4. Any response or cancellation of additional resources shall be brought to the attention of the scene manager.
 - EMD personnel shall inform involved agencies, ambulance services, and/or requesting parties of any specific resource request or cancellation that is not in compliance with EMD protocol provisions.
 - Within Kern County, an ambulance service with the closest available ambulance resource may be responded by OCD to prehospital calls *Medical Dispatch Policies and Procedures (2001.00)*

Emergency Medical Dispatch Policies and Procedures (2001.00)18Effective Date: 3/1/1992Kristopher Lyon, M.D.Revision Date: 9/19/20196(Signature on File)

located outside of the ambulance service operational area if it has been confirmed by OCD that the operational area ambulance service has no ambulance available for response in the area.

If a specific level of ambulance is requested for Priority 1, 2 or 3 responses 7. (ALS or BLS), the response shall be managed in accordance with the Division Program authorized EMD response configuration.

XII. ECC OPERATIONAL PROCEDURES

- Α. ECC shall respond the closest available fire first responders to EMS calls within jurisdiction based on fire station response areas and location of closest Fire Department EMS resources in accordance with EMD Protocol.
- В. Ambulance response shall be made by contact of OCD.
- C. EMS Aircraft dispatch shall be in accordance with the EMD protocol and Kern County EMS Division Program - EMS Aircraft Dispatch/Utilization Policies and Procedures.
- D. When a mutual aid ambulance is requested or the operational area ambulance is not available at call time for a pre hospital response, as specified in section XIII.D. below, ECC will dispatch fire first responders (if not already responding) to the incident if first responder resources can reasonably provide a shorter response time than the next closest ambulance service.
- E. ECC shall notify OCD if first in fire resources sent to an EMS call are responding from outside the first-in fire station response area.

XIII. AMBULANCE SERVICE DISPATCH OPERATIONAL PROCEDURES

- Α. These procedures shall also be applicable to an ambulance dispatch center that is not based within an ambulance service or is contracted to provide ambulance dispatch.
- В. For Priority 1 and 2 calls, ambulance service(s) shall respond the closest available ambulance (either basic life support ambulance or advanced life support ambulance) within the operational area that will provide the shortest response time to the call location. If the operational area ambulance service does not have an immediately available resource (s) in the operating area, but such resource(s) will become available and reasonably provide a shorter response time than the next closest ambulance service, that ambulance service shall be responded. If the operational area ambulance service does not have an ambulance available and requests a mutual aid ambulance response. OCD shall respond the next closest ambulance service to the call location.

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Kristopher Lyon, M.D. Revision Date: 9/19/20196 (Signature on File) Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

19

- C. An ambulance may be reassigned from a lower level response to an Echo level call. Other resource reassignments can be managed by the ambulance dispatch center.
- D. In the event that the ambulance provider anticipates that the maximum response time will be exceeded, or the ambulance is being responded from a different area or community for any prehospital Priority 1, 2, or 3 response, ECC shall be notified within two (2) minutes of call time.

Response Priority Code	Response Time Definition	EMD Response Level	l Response Mode		
1	Life-Threatening Pre-hospital Emergencies – All prehospital life-threatening emergency requests, as determined by the dispatcher in strict accordance with <u>Division Program</u> authorized EMD protocol.	 All Echo calls All Delta calls	Hot, Code-3		Formatted: Font color: Red, Strikethrough
2	Time-sensitive Pre-hospital Emergencies – All prehospital non-life-threatening emergency requests, including emergency standby requests, as determined by the dispatcher in strict accordance with <u>Division</u> <u>Program</u> authorized EMD protocol.	 All Charlie calls All Bravo and Alpha calls where hot response is authorized. 	Hot, Code-3		Formatted: Font color: Red, Strikethrough
3	Urgent Pre-hospital – Emergency medical call where ambulance provider takes immediate steps to dispatch a response, as determined by the dispatcher in strict accordance with <u>Division Program</u> authorized EMD protocol.	 All Alpha and Bravo calls where cold response is authorized All Omega calls 	Cold, Code- 2		Formatted: Font color: Red, Strikethrough
4	Time-sensitive Interfacility Emergencies – medically necessary requests from an acute care hospital for a hot response for an emergency interfacility transfer	•All acute care hospital emergency transfer requests for hot response	Hot, Code-3		
5	Urgent Interfacility - medically necessary requests from an acute care hospital for an emergency interfacility transfer. These may include transfer to other facility for orthopedic services, CT scan, MRI.	•All acute care hospital urgent transfer requests for cold response	Cold, Code- 2		
6	Scheduled Transfer or Long-Long-Distance Transfer – All prescheduled interfacility patient transfer requests, including long_distance transfer requests, as requested by caller.	4-hour advanced notification to ambulance provider is required	Cold, Code- 2		Formatted: Font color: Red
7	Unscheduled Transfer – All non-emergency interfacility patient transfers, as requested by the caller. These may include transfer directly off- the- floor to SNF, home, etc.	Non-emergency transfers <u>not</u> scheduled 4 hours in advance	Cold, Code- 2		
8	Special Event Stand-by – paid special event stand- by requests	4-hour advanced notification to ambulance provider is required	Cold, Code- 2		
9	Miscellaneous - ambulance responses that are requests for service outside Kern County.	N/A	N/A

Ambul	ances shall be dispatched according to the current Emergency Medical Dispatch	Formatted: Font: Not Bold	٦
Respo	nse Configuration. ALS service shall be indicated for the following calls: All Priority	<u></u>	
4, 5, 6	7, and 8 calls for interfacility transfer where the transferring physician requests		
ALS se	ervice, and All Priority 8 special event stand-by calls where the event sponsor		
reques	ts ALS service.		
An AL	S ambulance shall be dispatched to all calls where ALS service is		
presu	nptively indicated. ALS service shall be presumptively indicated for the		
followi	ng calls:		
1.	All Priority 1, 2, and 3 calls where an ALS response is indicated in		
	accordance with Division Program authorized response configurations.	 Formatted: Font color: Red, Strikethrough	٦
			2
2	All Priority 4, 5, 6, and 7 calls for interfacility transfer where the transferring		
2.	physician requests ALS service, and		
3	All Priority 8 special event stand-by calls where the event sponsor requests		
0.	ALS service.		
4. 1.	This shall not prohibit the ambulance provider from providing all ALS		
<u> 1. (</u>			
	ambulance service for every call. A BLS ambulance may be used on the		
	above listed Priority 1, 2, and 3 calls when all of the ambulance provider's		

- 4.1. This shall not prohibit the ambul ambulance service for every call. above listed Priority 1, 2, and 3 ca normally available ALS ambulance resources have been exhausted and the BLS unit(s) is the only remaining available ambulance(s). [Ambulance Performance Standards VII. A.]
- F. Priority 1 or 2 responses, in which the public safety agency has instructed the ambulance provider to stage for law enforcement or fire, will be dispatched COLD. If staging, the required response time shall be the same as a Priority 3 response. For response measurement purposes, the "at scene" time will be recorded when the ambulance arrives to the staging area. If the scene is cleared and secured before EMS arrival, the response will be modified according to protocol and the "at scene" time will be measured when the ambulance arrives at the dispatched location. [Ambulance Performance Standards IX. C. 4.]
- G. An ambulance provider may consider automatic staging without notification from a public safety agency in **Division** Program approved situations. ECC shall be notified within two (2) minutes of call time. All responses will be dispatched according to protocol. For response measurement purposes, the "at scene" time will be measured when the ambulance arrives to the staging area if the situation meets automatic staging criteria. If the scene is cleared and secured before EMS arrival, the "at scene" time will be measured when the ambulance arrives at the dispatched location. All other calls (those that do not meet stage criteria) shall be dispatched according to protocol, and response measurement shall be conducted as outlined in the Ambulance Performance Standards. The following situations

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

may allow for automatic staging at the discretion of the ambulance provider:

- 1. 4 card (Assault/Sexual Assault): If the assailant is still nearby or unknown location, or weapons were involved or mentioned
- 2. 7 card (Burns (Scalds)/Explosion (Blast)): When suffix E (Explosives) applies
- 3. 8 card (Carbon Monoxide/Inhalation/Hazmat/CBRN): Until determined safe to enter by public safety agency
- 4. 23 card (Overdose/Poisoning (Ingestion)): When suffix V (violent or combative) applies
- 5. 25 card (Psychiatric/Abnormal Behavior/Suicide Attempt): When suffix V (violent), W (weapons), or B (both violent and weapons) applies
- 6. 27 card (Stab/Gunshot/Penetrating Trauma): When assailant is nearby or unknown location
- 7. 32 card (Unknown Problem (Man Down))
- H. Ambulance services receiving private, 7 digit emergency medical calls from the public shall comply with the following:
 - 1. Each ambulance provider shall have emergency medical dispatcher (EMD) service available at all times. This requirement may be satisfied with a contract for service from another locally EMD-accredited dispatch center, provided that said other dispatch center is responsible for accepting service request calls for the ambulance provider. [Ambulance Performance Standards III. C]
 - 2. The ambulance provider shall use an Emergency Medical Dispatch (EMD) service
 - that is authorized by the Division for receiving all pre-hospital calls for service. [Ambulance Performance Standards VI. F.]
 - 3. *Non*-EMD personnel shall obtain the call location, phone number of the caller, and chief complaint and forward the caller to a Division authorized EMD Provider.
 - EMD Protocols shall be used by each Kern County EMD Provider for all prehospital emergency medical calls in which the transport destination is an emergency department.

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

- I. Special Event Medical Stand-By Services:
 - 1. For EMS calls originating at a special event with medical stand-by services that are not ALS or BLS ambulance level, the operational area ambulance service shall be dispatched.
 - 2. For EMS calls originating at a special event with ambulance level stand-by services, the on-site ambulance will responded, if appropriate. The on-site ambulance may request dispatch of the operational area ambulance service.

XIV. OUT OF COUNTY MUTUAL AID REQUESTS

- A. IF OCD receives a prehospital direct seven-digit private call and the call is from outside of Kern County, OCD shall provide EMD services and immediately notify the ambulance dispatch center with jurisdiction. Upon notification of the ambulance dispatch center with jurisdiction, OCD responsibility to dispatch or continue response to the call is no longer in effect.
- B. For EMS calls located outside the jurisdiction of ECC through 9-1-1 or other service, the EMD protocol shall be completed. Fire or ambulance response shall be made by contact of the appropriate communications center having jurisdiction over the call location. ECC may dispatch fire first responder and ambulance resources to areas outside Kern County in accordance with automatic mutual aid processes or agreements.
- C. Mutual aid requests for ambulance resources from out-of-county EMD providers shall be made by contacting OCD to request ambulance response.
- D. Mutual aid requests for fire department resources from out-of-county EMD providers shall be made by contacting ECC to request fire department response.
- E. Requests for both Fire and ambulance service response from out-of-county EMD centers will be accomplished through contact with both OCD and ECC separately.

XV. MULTI-CASUALTY OR MASS CASUALTY INCIDENT DISPATCH AND RESPONSE

- A. Multi-Casualty Incident Dispatch:
 - 1. EMD personnel shall initially dispatch the standard protocol response configuration according to protocol.

Emergency Medical Dispatch Policies and Procedures (2001.00)	23
Effective Date: 3/1/1992	Kristopher Lyon, M.D.
Revision Date: 9/1 <u>9</u> /201 <u>9</u> 6	(Signature on File)

- 2. EMD personnel may dispatch fire response and a maximum of two (2) ground ambulances if verified and accurate call information is received from a second party caller or first party caller.
- 3. EMD personnel may respond additional resources as requested by on scene ambulance, fire, law enforcement or <u>Division Program</u> personnel.
- 4. EMS <u>Division Program on-call Duty Officer staff</u> shall be alerted regarding any incident that is believed to meet Med-Alert criteria at any time during the incident. <u>Division Program on-call Duty Officer staff</u> will advise dispatch personnel if he/she will be monitoring on-scene radio traffic on the channel specified by dispatch personnel.
- 5. For multi-casualty incidents with five (5) or more reported victims or any of the below Med-Alert criteria are met, EMS dispatch personnel shall initially dispatch a standard protocol response configuration and activate the Kern County Med-Alert system. Activation of the Med-Alert system by ECC involves notification to the communications center responsible for the area in which the incident is occurring, if applicable, and EMS on-call staff Duty Officer notification. Med-Alert activation by OCD shall include initiate an MCI through the use of ReddiNet, which automatically alerts EMS on-call staff Duty Officer, and telephone notification to ECC of the Med-Alert. Refer to appendix B for detailed information on ReddiNet and Med-Alert activities.
- 6. EMS dispatch personnel shall activate the Kern County Med-Alert System if any of the following criteria apply to the situation or call:
 - a. Five (5) or more victims or casualties;
 - Evacuation of a medical facility (convalescent home or hospital) for any reason;
 - c. Significant medical hazard or possible threat to a significant population (hazardous materials, flood, evacuation, etc.); or
 - d. Any hazardous materials incident patient or victim with exposure or contamination;
 - e. Suspected or confirmed active shooter, or other acts of violent extremism with potential for loss of life.
- 7. EMS dispatch personnel shall enter the following information into ReddiNet when activating the Med-Alert system:
- a.Name of organization;Emergency Medical Dispatch Policies and Procedures (2001.00)24Effective Date: 3/1/1992Kristopher Lyon, M.D.Revision Date: 9/19/20196(Signature on File)

Formatted: Not Highlight

- b. Location of incident, incident type and number of patients reported; and
- c. Units responding and communication frequency used (if known).
- 8. EMS dispatch personnel shall inform the <u>Division Program</u> staff and other dispatch centers of situational changes and additional resource requests during Med-Alert operations. Further Med-Alert system information is contained in Appendix "B".
- For multiple ambulance response, EMS dispatch personnel during Med-Alert operations shall initially respond resources from the ambulance service covering the operational area until such ambulance service resources are depleted.
- 10. After the initial ambulance service resources are depleted, ambulance services in adjoining operating areas may be responded that will provide the shortest response to the incident location.
- B. Mass casualty incident dispatch shall be in accordance with procedures contained in the Kern County Emergency Plan Annex "D".
- C. Disaster Medical Dispatch Protocol Indications/Activation: The Disaster Medical Dispatch Protocol (DMDP) is indicated for use in incidental cases of dispatch center overload due to incoming call volume and severe cases of inadequate resources (X X-Ray Level) that may be activated by a dispatch center; or in a significantly more serious disaster medical level that may only be activated by the <u>Division Program</u> (Y Yankee Level or Z Zulu Level). The following are DMDP levels and actions:
 - X X-Ray Level: Dispatch Center caller overload, unable to answer and fully manage incoming emergency calls with the EMD Emergency Rule (no post-dispatch instructions provided) in effect for one (1) hour or more. 1) <u>Instruct callers of likely response delay</u>. 2) <u>Notify the EMS Division</u> <u>Program.</u>
 - Y Yankee Level: Mass incidents clearly beyond resources to respond as determined by the <u>Division Program</u>. 1) No post dispatch or pre-arrival instructions. 2) Instruct callers of likely response delay.

Formatted: Font color: Red, Strikethrough

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

 Z – Zulu Level: Mass casualty medical disaster operations as approved by the <u>Division Program</u>. 1) No response generated to any incident by dispatch center. 2) All callers are instructed where to receive help. 3) Priority incidents are referred to the EMS DOC for priority setting and response assignment.

XVI. QUALITY IMPROVEMENT

- A. EMD Provider Level:
 - 1. All authorized EMD Providers shall have an EMD coordinator responsible for oversight of the EMD Program including, but not limited to, coordination of initial training, continuing education, and quality assurance. Specific functions may be delegated to other EMD qualified personnel.
 - 2. An EMD-Q, may be responsible for, but not limited to, initial training, continuing education, and quality assurance.
 - 3. An EMD coordinator or an EMD-Q under the responsibility of the EMD provider shall conduct a minimum of two random EMD case reviews biweekly of each EMD who has provided EMD services during the bi-weekly period. Part time, relief, or EMD Preceptor personnel that do not have sufficient cases (2 or more within the time period) to meet this requirement will have each EMD call reviewed up to the minimum review standard.
 - 4. The EMD coordinator or EMD-Q shall evaluate protocol compliance during the EMD case review and document EMD performance observations on an EMD case review record which shall be forwarded to the EMD for review and feedback and maintained on file.
 - 5. EMD case review records shall be maintained on each EMD by the EMD provider for a minimum of one (1) year from the date of the case. Such records may be used by the EMD provider for performance evaluation and shall be available to the <u>Division Program</u> upon request.
 - 6. The EMD provider shall provide a documentation system for EMD personnel questions and feedback and problem related incident reporting.
 - 7. An agency or provider representative should attend EMS Dispatch Quality Improvement Group meetings scheduled by the <u>Division Program</u>.
 - 8. Each EMD case involving a determinant level or determinant descriptor over-ride shall be reviewed by an EMD-Q. Case review data for each over-ride shall be submitted to the <u>Division Program</u> no later than forty-five (45) calendar days after the end of the month being reported.

Emergency Medical Dispatch Policies and Procedures (2001.00)	26

Revision Date: 9/19/20196	(Signature on File)

Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

- 9. The EMD provider shall maintain and report monthly EMD activity and QI data to the <u>Division Program</u>. The <u>Division Program</u> will provide an electronic reporting tool in an excel spreadsheet format. The completed spreadsheet for the month shall be electronically submitted to the <u>Division Program</u> no later than forty-five (45) calendar days after the end of the month being reported. EMD activity data report shall include the following:
 - Total number of protocol card uses by each card (1-33) determinant level (Ω, A, B, C, D, or E), determinant descriptor selected (1-28), sub-descriptor (a-z) and Problem Suffixes*.

*Upon request providers may be granted an implementation period to comply with the requirement to report problem suffixes if their current reporting system is not configured to report the problem suffix.

- b. Total number of EMD cases reviewed.
- c. Percentage of deviation for the following areas:
 - i. Case Entry
 - ii. Chief Complaint
 - iii. Key Questions
 - iv. Dispatch Life Support
 - v. Final Coding
 - vi. Customer Service (optional)
- d. Determinant Drift Information
- e. Percentage of calls for each of the following categories:
 - i. High Compliance
 - ii. Compliant

Division Brogram

- iii. Partial Compliance
- iv. Low Compliance
- v. Non-Compliant
- 10. The <u>Division Director</u> <u>Program Manager</u> is the final authority for determination of distribution of EMD data reports. Any EMD Provider may request in writing that the <u>Division Program</u> hold a specific report confidential. The written request must include the specific report topic or topics and detailed rationale for confidentiality. The <u>Division Director</u> <u>Program Manager</u> may seek County Counsel advice regarding report confidentiality, before the report is distributed or withheld from distribution.

1.	EMS (ivision Program shall be responsible and have medical control of the dispatch system to include the establishment of regulations, policies,	_	Formatted: Font color: Red, Strikethrough
	proce	dures and protocols.		
2.	The	Division Program shall conduct investigations of written complaints		Formatted: Font color: Red, Strikethrough
		r problem incident reports related to the EMS dispatch system and/or		
		operations as necessary. The Division Program shall implement		Formatted: Font color: Red, Strikethrough
		(s) necessary to correct identified problems and/or needs of the EMS ch system, providers, training programs or personnel.		
3.	The	Division Program shall establish an EMS Dispatch Quality	_	Formatted: Font color: Red, Strikethrough
0.		vement Group and conduct meetings. The EMS Dispatch Quality		
		vement Group shall at minimum be comprised of one (1) EMD		
	coordi	nator or (1) EMD-Q representative of each authorized EMD provider		
	operat	ting within the County and <u>Division Program</u> staff.		Formatted: Font color: Red, Strikethrough
		EMS Dispatch Quality Improvement Group shall primarily provide a for the following:		
	a.	Conduct EMD and EMS dispatch case review as indicated;		
	b.	Exchange of ideas and information between EMD providers to improve operational and EMD efficiency;		
	C.	Identify training needs for system wide protocol or procedural changes, i.e. Trauma System, IAED Protocol upgrades, etc.;		
	d.	Provide feedback on EMS dispatch system and EMD efficiency to the EMS System Collaborative;		
	e.	Discuss and resolve inter-organizational issues related to EMD operations and the EMS dispatch system where possible;		
	f.	Serve as an EMD advisory source to the EMS System Collaborative;		
	g.	Review of recommendations from the EMS System Collaborative.		
C. The	Division	Program will establish an EMS System Collaborative and conduct		Formatted: Font color: Red, Strikethrough
mont	hly mee	tings, or as deemed necessary by the Director Manager. The EMS		Formatted: Font color: Red, Strikethrough
		aborative shall be comprised of representatives of each authorized		
		r agency or EMS Dispatch Center, ambulance service management		
		nd hospital administrative personnel operating within the County and gram staff. The EMS System Collaborative shall primarily provide a		Earmatted: Font color: Pad Strikethrough
		following as it relates to dispatch:		Formatted: Font color: Red, Strikethrough
		tch Policies and Procedures (2001.00) 28		
Effective Date: 3/1	•	Kristopher Lyon, M.D.		
Revision Date: 9/1				

- a. Review of recommendations from the EMS Dispatch Quality Improvement Group
- b. Discussion of broader EMS dispatch policy and position statements.
- c. Strategic planning of system wide dispatch and communications.
- d. To address issues and concerns in dispatch and communications.
- D. The <u>Division Program</u> shall collect and analyze EMD activity data from EMD providers and provide an EMD activity data summary to assist with EMS dispatch system development and policy priorities.
- E. The <u>Division Program</u> may offer CDE training and will provide CDE certificates if requested.
- F. EMD and EMS dispatch system quality improvement shall involve a continuous process of system performance analysis to resolve issues or problem trends with prospective, concurrent or reactive actions.

XVII. Duty Officer Notifications

- A. The Program Duty Officer must be notified for any of the following situations:
 - a. Any Hazard Material incident regardless of patient count.
 - b. Environmental Health dispatched.
 - c. Bomb threats, shootings, or other incidents that involve SWAT team with an ambulance on stand-by.
 - d. Any time a law enforcement officer, fire fighter, EMT, or Paramedic are injured on scene or during the duration of the call.
 - e. Any vehicle accident involving an emergency vehicle.
 - f. Any alert 2 or alert 3 from the airport.
 - F.g. Med-Alert.

Revisions:

04/01/94: Section II. Definitions - Alpha, Bravo, Charlie, Delta added (page 4); XII., C., 6. - prior section c., e., f. deleted, new sections c., d., e. added.

05/02/2002: Complete revision of entire document.

07/03/2002: Final revision of policies after multiple month review process by EMS Dispatch QI Group.

07/01/2004: Disaster Medical Dispatch Protocol added to Section XV. after EMS Dispatch QI Group review.

10/15/2004: Added poison control center and mental health hotline conference process to XII. J. 7.

05/21/2007: Revisions to achieve consistency with Ambulance Performance Standards, and Revised EMD Reports.

09/01/2010: Revisions to Med Alert trigger from five (5) patients to ten (10) patients; specify EMD version in use in the system 03/01/2012: Revisions to Med Alter trigger from ten (10) patients to five (5) patients; specify procedures for ReddiNet use.

Change all "Department" to "Division"; replaced Dispatch Steering Committee with EMS System Collaborative. 09/20/2012: Revision to Protocol 33.

06/01/2013: Add protocol 12 to exception of Alpha F cold responses

11/22/2013: Add provision for ambulance service provider to consider staging on criteria calls without advisory to stage from public safety agency.

01/01/2015: Update policy. Remove training program information; updated dispatch center requirements, update reports. EMCAB approval 11/13/2014.

11/12/2015: EMCAB approved change to report deadline from twenty (20) days to forty-five (45) days.

09/01/2016: Revise to current practice to include OCD as single ambulance dispatch, further define scope of practice and requirements. Add mutual aid request section. Multiple additional clarifications.

09/19/2019: Changed "Division" to "Program". Changed "on-call" to "duty officer". Added definition for "Duty Officer". Changed "Director" to "Manager". Updated information number for Med-Alert. Added section to clarify when to contact the Duty Officer.

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

XVII. Appendix A: Med-Alert System Information

MISSION STATEMENT/ACTIVATION CRITERIA AND INFORMATION

INTENT:

The intent is to provide information related to the Kern County Emergency Medical Services Division <u>Program</u> (EMS <u>Division Program</u>) activation, response and operations procedures for multi-casualty, mass casualty, hazardous materials or other incidents negatively impacting the EMS system within Kern County.

MISSION STATEMENT:

It is the mission of the EMS <u>Division Program</u> to provide direction and coordination of EMS system providers and resources during multi-casualty, mass casualty, hazardous materials, and other incidents having negative impact to the EMS system.

KERN COUNTY MED-ALERT SYSTEM ACTIVATION CRITERIA AND INFORMATION:

The Kern County Med-Alert system provides a mechanism to manage multi-casualty, mass casualty, hazardous materials and other incidents having negative impact to delivery and operations of the EMS system within the county. At the initial response phase to an individual incident, a standard EMS response shall be generated to the incident location. The Kern County Med-Alert system shall be activated if any of the following criteria apply:

- 1. Five or more casualties or victims;
- 2. Evacuation of a medical facility (convalescent home, hospital), for any reason;
- 3. Significant medical hazard or threat to a significant population (hazardous materials, flood, populated area evacuation, etc); or
- 4. Any hazardous materials incident patient or victim with exposure or contamination;
- 5. Suspected or confirmed active shooter, or other acts of violent extremism with potential for loss of life.

The Kern County Med-Alert system may be activated by public agency dispatch or communications center personnel, fire, ambulance or law enforcement personnel, hospital emergency department personnel, and the EMS <u>Division Program</u>. Early activation should be made if possible.

Activation of the Kern County Med-Alert system is accomplished through the communications center of the area where the incident is occurring. If fire department personnel or ECC activate the Kern County Med-Alert System, ECC will notify OCD, or the out-of-county communications center responsible for the area in which the incident is occurring and notify the <u>on-call</u> EMS <u>Duty Officer staff</u>. The OCD will initiate an MCI event in ReddiNet. ECC has continuous access to <u>the on-call</u> EMS <u>Duty Officer staff</u> on a 24-hour basis. ECC may be contacted by dialing (661) 868-4055.

-----OCD will activate an MCI through ReddiNet and telephone notification to ECC. The OCD will send a general notification to all hospitals in the area and conduct a hospital poll to determine bed *Emergency Medical Dispatch Policies and Procedures (2001.00)* 31 Effective Date: 3/1/1992 Kristopher Lyon, M.D. Revision Date: 9/19/20196 (Signature on File) Formatted: Font color: Red, Strikethrough

Formatted: Font color: Red, Strikethrough

availability. Hospitals will be provided with any other pertinent information regarding the event. Upon response from the hospitals, OCD will forward bed availability information to the on-scene paramedic supervisor or lead paramedic.

Upon receiving transport destination information from the paramedic supervisor or the lead paramedic, OCD will enter the information in the "Send Patients" link and complete the "Destination", "Ambulance" and "Patients in this rig" sections.

Upon notification from the paramedic supervisor or lead paramedic that all patients have been transported from the scene, the OCD will "END" the Med-Alert. After 48 to 72 hours following the Med-Alert the initiating communications center will "Close" the Med-Alert.

The EMS <u>Division Program</u> may establish communication with ambulance dispatch, hospitals, fire department dispatch, and various other county and state agencies as needed.

Refer to the Kern County Emergency Plan, Annex "D", Medical Operations for further information related to the Kern County Med-Alert system or contact the Kern County EMS <u>Division Program</u> at (661) <u>868</u>-<u>5201</u> <u>321-3000</u>. Formatted: Font color: Red, Strikethrough

Emergency Medical Dispatch Policies and Procedures (2001.00) Effective Date: 3/1/1992 Revision Date: 9/19/20196

XVIII. Appendix B: Trauma Care System Dispatch Activation

The Kern County Trauma Care System may be activated through dispatch by:

- 1. Fire Department:
 - Step 1 or Step 2 Adult or Pediatric Trauma Cases
 - In cases when requested by on-scene ambulance personnel
- 2. Ambulance Service:
 - When requested by on-scene ambulance personnel

Dispatch personnel will need to contact the Trauma Center Emergency Department and relay the following:

- 1. Call Location
- 2. Number of Victims
- 3. Each Patient Activation:
 - Age/Sex
 - Description of Injuries
 - Trauma Triage Criteria Met

Ambulance dispatch may also be requested to deactivate the Trauma Care System upon request of an ALS Ambulance. Dispatch staff needs to contact the Trauma Center Emergency Department, confirm the incident type, location and relay the deactivation request.
