

***PCR Policies and Procedures (1004.00)***

**I. GENERAL PROVISIONS**

- A. This policy defines all requirements regarding electronic data collection (Electronic Patient Care Report) and their uses, completion, referral, retention and reporting within Kern County.
- B. The patient care report (PCR) and mandatory electronic data elements (e-PCR), are established and maintained under the authority of the Emergency Medical Services Division (Division) in accordance with California Health and Safety Code, Division 2.5, Sections 1797.204 and 1797.227 and California Code of Regulations Title 22, section 100171(f).
- C. The mandatory data elements, and electronic records are official medical records and upon submission are the property of the Division. The mandatory electronic data elements shall be retained and maintained by the care provider's employer as the legal custodian of the medical record. Electronic Patient Care Records are confidential medical records and are limited to the possession of the Division, authorized EMS providers involved with response to the patient location or direct patient care, and authorized medical facilities that receive the patient if transported.
- D. The Division recognizes the current version of the National Highway Traffic Safety Administration (NHTSA) Uniform Pre-Hospital Emergency Medical Services Dataset, National Emergency Medical Services Information System (NEMSIS) for the collection and aggregation of all electronic data in the local EMS system. All references herein to "Mandatory Elements", "Data Elements", "Elements" or "Data" are taken directly from the NEMSIS Dataset and can be located and referenced in the NEMSIS Data Dictionary located at: <https://nemsis.org/>
- E. The electronic patient care report may be provided to other sources only in accordance with applicable state and/or federal laws; or may be provided to the patient or patient responsible party by valid written authorization.
- F. The electronic patient care report shall be accurately completed in accordance with these policies and procedures. Willful falsification of a patient care record or failure to comply with these policies and procedures shall result in formal investigative action per 1798.200 of the California Health and Safety Code and Ordinance Code 8.12.190.
- G. The mandatory data elements (e-PCR) listed in Appendix A below shall be generated by the service provider and transmitted to the Division in accordance with this policy.

- H. The data obtained through an electronic patient care report will be used for, but not limited to, the following purposes:
  - 1. Documentation of patient problem history, assessment findings, care, response to care and patient outcome for the purposes of effective continued patient care by responsible medical professionals; and medical-legal documentation.
  - 2. Development of aggregate data reports of various topics determined by the Division to drive the continuous quality improvement (CQI) system action plan;
  - 3. Evaluation of compliance with Ordinance Code 8.12;
  - 4. Indicator for individual case evaluation; and
  - 5. Divisional issue or case investigation.
- I. The Division, in consultation with EMS providers, may revise these policies and procedures and mandatory data elements (e-PCR) as necessary.
- J. Each agency is responsible for developing and maintaining a data collection back up plan.
- K. Any agency that experiences a failure of its electronic data collection system shall immediately notify the Division of said failure. Said agency is responsible for maintaining the collection of all mandatory data elements should a failure occur. Said agency shall have 48 hours to correct the above mentioned electronic data collection failure and begin submitting all mandatory electronic data elements. All data elements collected during the above mentioned failure shall be maintained and entered into the electronic collection system immediately following the system's availability. In addition, any agency planning system maintenance or upgrades that could cause a delay in data transmission, will notify the division at least 24 hours in advance of said maintenance or upgrade.

## II. DEFINITIONS

- A. **“Division”**: Kern County EMS Division of Public Health.
- B. **“Ordinance”**: Kern County Ordinance Code.
- C. **National EMS Information System (NEMSIS)**: The national data standard for emergency medical services as defined by the National Highway Traffic and Safety Administration (NHTSA) and the NEMSIS Technical Assistance Center (TAC).
- D. **California EMS Information System (CEMSIS)**: The California data standard for emergency medical services as defined by the California Emergency Medical Services Authority (EMSA). The data standard includes the NEMSIS standards and state defined data elements.
- E. **Kern County Emergency Medical Data System (KCEMDS)**: The Kern County EMS data standard for emergency medical services as managed and defined by

Kern County Emergency Medical Services (KCEMS). The data standard includes the NEMSIS, CEMSIS, and Kern County specific data elements.

- F. **Patient Care Reporting System (PCRS):** An electronic software platform that allows for real time collection of patient care information at the time of service.
- G. **“Mandatory Element”:** a data field identified by the EMS Division that must be completed and transmitted by EMS provider.
- H. **“e-PCR”:** the mandatory electronic data elements that as a whole make up the electronic patient care record that is completed by the EMS provider which shall serve as the permanent patient care report documenting patient condition, treatment, and all associated circumstances pertaining to a response.

### III. **Data Submission Process:**

EMS Providers shall submit data using any third party PCRS that meets data submission requirements as defined in the Patient Care Reporting section of this policy. All data element requirements as set forth by the current versions of NEMSIS, CEMSIS, and KCEMDS must be met. To submit data, the EMS provider shall do all of the following:

- A. The provider must be an approved Kern County EMS provider.
- B. Private based EMS provider who is currently licensed by KCEMS as an Ambulance Provider.
- C. Public or private based first responders (i.e. Fire Department, Oil Fields, Law Enforcement, etc.) in which response and patient care activities occur within the jurisdictional boundaries of Kern County.
- D. The PCRS used by the EMS Provider shall be certified compliant with the current version of NEMSIS.
- E. Submit a written request for access to the KCEMS NEMSIS Web Service. The request must include the following:
  - 1. Provider Name and Agency ID
  - 2. PCRS Vendor Information (including 24 hour technical support contact)
- F. The request will be reviewed by KCEMS within 14 business days. If approved, access to the KCEMS NEMSIS Service will be granted to the PCRS vendor.
- G. Once access to the KCEMS NEMSIS Service has been granted, KCEMS will work with the provider and the PCRS vendor to conduct data submission testing.

#### H. Provider Responsibilities:

1. Establish and continuously maintain a connection with the KCEMS NEMSIS Web Service.
  - (a) The provider should be prepared to submit incident data for every completed Patient Care Report in real time immediately upon completion by the provider.
  - (b) The provider shall immediately report any technical difficulties with establishing or maintaining a connection to the KCEMDS System Administrator.
2. Upon initially establishing a connection, submit dAgency data followed by at least five (5) test incident records that constitute a complete Patient Care Report for the following types of patients:
  - (a) Cardiac Arrest
  - (b) Chest pain/Acute Coronary Syndrome
  - (c) Stroke
  - (d) Trauma
  - (e) Respiratory Distress
  - (f) Adult
  - (g) Pediatric
3. Inform KCEMS when test incident records have been submitted.
4. Address and correct technical and/or data validation issues that are identified

#### I. KCEMS Responsibilities:

1. Provide web service access information, including: web service URL, username and password.
2. Review test incidents submitted by the provider/vendor.
3. Provide guidance and support to address technical and/or data validation issues.

#### IV. PATIENT CARE REPORTING:

- A. As of the effective date of this policy, the KCEMDS is compliant with and able to accept NEMSIS 3.4 data.
- B. EMS providers who are already submitting data in the NEMSIS v2.2.1 or v3 format may continue to do so through December 31, 2016.
- C. As of 0001hrs, January 1, 2017, EMS providers shall only submit data in the current NEMSIS v3.4 format, as per A.B.1129.
- D. Provider agencies shall ensure that their PCRS complies with all national (NEMSIS), state (CEMSIS), and local (KCEMS) data elements and field values.
- E. Provider agencies shall be responsible to ensure that their PCRS is able to establish and maintain a connection with the KCEMDS. Such responsibilities include but are not limited to:

1. All costs associated with establishing and maintaining a connection with the KCEMDS up to the provider side of the interface.
2. Initial and continued compliance with established data standards.

F. On occasion, changes to existing data elements may be needed as changes to the local EMS system occur. Such changes may include but are not limited to the addition of new procedures, medications, or changes to provider or facility names.

G. When changes described above are necessary, the PCRS used by the provider agency will need to be updated as soon as possible upon written notification from KCEMS.

H. A provider PCRS must transmit PCRs in the established format to the KCEMDS immediately upon completion by EMS personnel.

#### **V. DOCUMENTATION STANDARDS:**

A. PCRs shall be completed and submitted electronically to KCEMS.

B. Except in rare cases of system downtime or inoperability of electronic devices, the PCR shall be made available to the receiving center physicians and staff before leaving the receiving center.

C. It shall be the responsibility of EMS personnel to document accurately on their PCR. KCEMS may request specific documentation elements related to CQI, Field Study, Syndromic Surveillance or Emergency Management data collection.

D. EMS providers shall accurately complete and submit all mandatory electronic data for each response to a call for service as described herein. This includes all emergency responses, non-emergency responses, responses that are canceled before scene arrival, any pre-arranged stand-by, and patient transfers originating in Kern County. In addition, any contact between an EMT, Paramedic, or CCT Nurse and a potential patient requires completion of a PCR.

All mandatory data elements shall be completed by the EMT, Paramedic, or CCT Nurse responsible for patient care. (See Appendix A for Mandatory Data Elements)

#### **VI. PCR OPERATIONAL PROCEDURES**

A. Times entered in Interventions, Vital Signs, and Assessments are considered estimates based on the approximate time the particular skill or procedure was completed.

B. Patients who are transported to medical facilities or hospitals outside of Kern County or to medical facilities within Kern County other than hospital emergency departments, a print out of the electronic patient care report can be submitted via fax to the facility, if requested by that facility. If written documentation is requested at time the patient is delivered, the attending EMT, Paramedic, or CCT Nurse shall provide a completed Kern County Ambulance Report Form.

C. The Division may also request immediate submission of the e-PCR for a specific call or calls. EMS providers shall immediately submit requested e-PCR to the Division.

REVISION & ACTION LISTING:

02/13/95	Complete Draft for Limited Trial Project
02/27/95	Draft revised for Full Scope Trial Project (to remain as authorized use draft until trial completed)
03/17/95	Revision - Consistent with Project Progression for Reference
07/15/95	Revision - Consistent with feedback to date, for full implementation.
08/18/95	Revision - Consistent with revised forms.
10/18/95	Revision - Consistent with revised forms for full implementation.
11/16/95	Revision - Consistent with feedback
11/15/2002	Revision Draft for group review
12/20/2002	Revised Final in accordance with PCR Provider Group Feedback
02/28/2006	Revised – e-PCR initial implementation
12/18/2008	Revised Section III J. PCR submission timing to EDs, and updated cover page
05/01/2012	Revised – Consistent with data warehouse equipment, added mandatory narrative, and added Fire and Law to reporting
05/29/2012	Minor changes/edits per final staff review
06/01/2012	Effective date for revisions made in May 2012
10/10/2012	Defined “Preliminary Record”
08/02/2013	Updated Ambulance Report Form in Appendix Three
05/12/2017	Updated for NEMSIS 3.4 compliance.
